

WISHING WELL 2

May 12, 2019

Session Notes Taken From Skype Recording

Current planetary movement and positioning results in events of epic proportions here on Earth.

- Final collapse of old ways results in the appearance of new ways
- Human evolution will bifurcate (forked; branched). Smoothness of this depends on the work such as ours. It's the time to dig in. Gene (with a bit of trepidation) is contemplating ramping up our work?!
- What do these epic changes have to do with us? Not much.

Redemption (Review of)

It all comes down to:

- Where we come from
- Where we are going
- How to get back Home, the place of peace, eternity

What needs redemption about going Home? The eternal doesn't require redemption. It never sinned.

- The attachment this mind has to the mind.
- When we come Home, we are in the Bliss body, in Christ/Buddha consciousness. We surrender to God.

The mind can re-program itself. We were born with egos/as predators. We are virtual except our brains are more sophisticated than the other virtual simulations like TV, phone, etc.

Original sin is mistaking the virtual reality with who we REALLY are.

- Everything we do in this virtual reality can't have integrity as if we were acting from our integrity. There is a different feel.

We are all God incarnate just as Jesus was. The difference is that Jesus knew it and we may not.

Don Miguel Ruiz: We are all predators. Use it to get back to integrity. We look for emotional reaction from others. Our job here is to use the predator as our ally. This means to surrender. What does life want us to do in our time here? We are not here to throw out the ego. We use the skill of the predator to find our way back home. Hunt our consciousness to find our way home. For motivation to be free. We don't give up our intelligence or awareness or perception. We use it to help us find our way home.

If we weren't needing redemption, we'd just drop it.

WISHING WELL 2

Different spiritual paths have different predatory ways to redemption:

Vedic: persistence in devotion

Karmic:

Intelligence: reason what is eternal

Tantric:

Affirmations: glorify with words

Austerities: Warrior's will of the predator to remove things that capture us in point of view such as fasting. "We are not our body and we are not our mind."

(43.05 in recording)

We brought with us in this life tendencies (vasanas, habits, weaknesses such as guilt, shame, sex, chocolate). They are congenital or acquired. These tendencies are attachments to parts of our body and mind that are currently beyond our control. We have not been able to eliminate them. This is the price for having a body here. We can use our body for our spiritual evolution.

Using our body/mind/vasanas for our advancement Home is called Redemption.

The redemption mudra is a prayer to God (or that which is greater than ourselves) to give us the grace of freedom from the torment of not being in our integrity when we are engaged in our tendencies.

When we are aware, it is hard to see ourselves behave in such ways. Redemption is a prayer to have that vasana removed from us or to have us redeem it so that it advances us.

We cannot remove our tendencies ourselves, so we need the help of redemption.

Faith is essentially coming Home. Putting ourselves into something that is much greater than we are. The fruit of this is Love, Gratitude, Bliss, Generosity. All of these mudras are putting us in the place of integrity.

(49.0 minutes into recording)

It's not enough for us to redeem ourselves. Redemption doesn't stop with me.

We cannot go around and tell folks what to do. Once in a while, though, something comes through us that submits the Nagual's blow. It is not planned, it just comes through us to someone else.

All of our bodies (physical, energetic, mental, spiritual) have to be purified or redeemed.

Go to a church sometime and bless the people there and plant the seed of freedom. The religion, the temple, can work as a membrane and almost hold the people hostage.

- A Toltec Sorcerer or Master takes anything that has an implanted meaning in it, empties it, and then re-figures the meaning to the Master's intent. Example; if the word "devil" creates a reaction, we need to clear and clean this reaction.

WISHING WELL 2

Salve = Salve (like a salve on one's soul). Salvation means comfort (without an agenda)

The Skype session was ended with a beautiful mediation on redemption and salvation. Check out the recorded session.
